EDUCATION

University of Pennsylvania – Master of Integrated Product Design — Philadelphia, Pennsylvania
School of Engineering and Applied Science — **Expected May 2028**
Relevant Coursework: Product Engineering Basics, Design for Manufacturability, Engineering Entrepreneurship I & II

Cornell University – Bachelor of Science, Design and Environmental Analysis — Ithaca, New York
Cum Laude | Minors in Architecture and Cognitive Science — Aug 2022 – May 2026
Relevant Coursework: Product Management (Graduate), Human Perception: Application to Computer Graphics, Art and Visual Display, Materials for Design and Sustainability, Positive Design Studio, Research Methods: Human-Environment Relations

TECHNICAL SKILLS

CAD & Engineering: Rhinoceros, SOLIDWORKS, Fusion 360, Onshape, AutoCAD, SketchUp, Revit
Visual & Design: Adobe Suite, KeyShot, Figma, Miro, Hand Drawing
Prototyping & Fabrication: Laser Cutting, CNC, 3D Printing, Physical Modeling, Pottery, Wood Carving
Technical & Productivity: Microsoft Excel, Powerpoint, Word, Python, Arduino,Google Workspace, n8n

PROFESSIONAL EXPERIENCE

Product Design & Development Lead — Ithaca, New York
Cornell Heavyweight Rowing — Aug 2025 – May 2026

- Designed an adjustable-length catch-angle marker for team training, defining the requirement through direct observation of on-water sessions and input from coaches and athletes.
- Prototyped and tested it in ABS-M30 across 3 iterations over 2 months with a mechanical engineer, replacing a flathead screw with a field-adjustable hex screw and adding tapered fin geometry for secure length adjustment.
- Cut unit cost 81% ($20.62 to $4 per marker; $399 saved across a set of 24) and adjustment time from 90 to 45 seconds; 0 of 24 markers cracked since deployment; adopted across 3 boats (24 rowers).

Industrial Design Intern — London, United Kingdom
Michael Anastassiades Studio — June 2025 – Aug 2025

- Translated studio concepts into CAD models, KeyShot renderings, and physical prototypes across 3 product development projects, iterating through 10–15 rounds based on testing and designer feedback for internal work and an external client.
- Built and refined cardboard prototypes of a wooden lounge chair through multiple iterations to match the designer's vision, producing the final model shipped to the manufacturer for production in wood.

Apparel Design & Production Lead — Ithaca, New York
Cornell Heavyweight Rowing — Aug 2024 – May 2026

- Led redesign of team identity, designing a new logo in Illustrator informed by the boathouse's visual history and team polls, and applying it across 20+ apparel concepts.
- Evaluated vendors by product category to balance price, quality, and durability, managing 3–4 production runs per year over 2 years (50+ units per order) for 40 athletes, the women's team, and coaching staff.

Lance Corporal | Head of Recruit Training — Limassol, Cyprus
Cyprus National Guard — June 2021 – Aug 2022

- Led a 20-soldier platoon through joint mission simulations with Infantry and Armored regiments across 3 exercises during 14-month mandatory service.
- Promoted to Lance Corporal and appointed Head of Recruit Training in the final month of service, leading onboarding and standards development for a cohort of 15 incoming recruits.

ATHLETICS

Recruited D1 Student - Athlete — Ithaca, New York
Cornell Heavyweight Rowing — Aug 2022 – May 2026

- Committed 25+ hours/week to training and competition while completing a full-time academic course load.
- Selected for the Leaders 2 Leaders program, an invite-only leadership development track for Cornell varsity athletes.

ADDITIONAL

- Interests: Pottery; Spearfishing; Kitesurfing.
- Language Skills: Fluent in Greek and English, intermediate level in Italian.
